

September 16, 2025: On the Body of the Monster

It's the USA military. They created this beast and it has no head. This beast is simply a headless monster that replaces its mask every 4-8, or in Trump's case, 12 years. Hell, maybe more now that they have shown their cards.

Next President? It will not matter. The USA military is playing gangster criminals and mobsters over the world now. I am so very sorry to be the one that is showing this to you, but it is true.

The USA military has a serious mental health problem that cannot be fixed. The military must be defunded.

The USA wants to show itself as more moral than China? More moral than Russia? More moral than Israel? How exactly can we measure this morality anymore?

As far as I see, the USA government is being controlled by a criminal military that is facilitating wars around the world for its own benefit and profit. My best guess is that the expiration date is approaching on their last batch of ammo and they are just letting it lose to have some fun before they replenish their reserves.

Whatever the case may be, the United States is plainly criminal and the USA military is facilitating a worldwide mob of criminals to torture and kill inside and outside of America.

Defund the military. This is plainly apparent from Donald's historical statements and current behaviors: THE UNITED STATES MILITARY IS RUNNING WILD IN CRIMINAL BEHAVIOR AND HAS NO INTENTION OF TURNING BACK NOW.
